

# SECTORAL EQAVET

*For design and delivery of VET*

## Project Aim

Sectoral-EQAVET's overall aim is to develop guidelines with relevant indicators for VET authorities, VET providers, and employers. The goal is to compare skills provided by VET institutions with competences requested by employers. The analysis includes both core skills and transversal skills/key competences based on descriptors for indicators 5, 6, and 9 of EQAVET.

## Project results

### Best Practices

Analysis of existing procedures regarding the alignment of VET to required skills and qualifications based on occupational requirements.

### Guidelines

Guidelines for Occupational Profiling, providing in depth occupational analysis and development in different sectors.

### Assessment Tool

Provide necessary methods and tools to VET Providers to assess the relevance of skills and qualifications they provide, in comparison to the ones requested by employers and VET authorities.

# SECTORAL EQAVET

## Objectives

Promote performance-based approaches in VET:

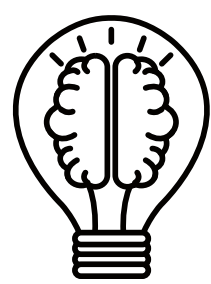

- to align VET programs offered with the demand in the labour market at EU level;
- to adjust the skills acquired and qualifications offered in the curriculum to the professional skills and qualifications for the same occupation in different EU countries
