VET4NAI PROJECT

Calendar : February 2022 - July 2024

VET for NAI is an ambitious Erasmus+ project that aims at the rapid and effective integration of newly arrived immigrants (NAIs) into the labour market through training that integrates familiarisation with the language of the host country and offers skills.

This will increase their accessibility to European labour markets and will foster their inclusion into their host countries' societies.

The Guidance Toolkit will be based on empowering newly arrived immigrants, focusing on active choice on their entrance into the labour market.

VET4NAI project aims to research current national obstacles in an effective integration of newly arrived immigrants into the labour market and its needs, and on the basis of that develop a career guidance toolkit.

VET4NAI Project Progress April 2023-Nov 2023

The partners from Sweden, Italy, Greece and France, gathered together for a Transnational Partners Meeting in Larissa in July 2023. They were able to discuss the next steps to take for the development of the Guidance toolkit (IO2) and the training handbook.

As we advance the VETforNAI initiative, our focus sharpens on refining key elements crucial for the successful integration of newly arrived immigrants into the labor market. Led by Dimitra, we're fine-tuning the Toolkit based on partner feedback, while comprehensive Training Needs Assessments guide our approach. Spearheaded by Fispes, training sessions will evolve with real-world feedback. Intensified dissemination efforts and robust project management practices ensure transparency and efficiency. Preparation for future meetings, including TPM4 in Italy and LTTA in Greece, underscores our commitment to progress. Together, we're dedicated to fostering inclusivity and opportunity for all immigrants. Stay tuned for updates as we navigate this journey.

Facts About PR3: The Training Handbook

1. TrimTab and FISPE unite to unveil PR3, a groundbreaking training handbook for guidance staff.
2. Initiating on September 1, 2023, and culminating on April 30, 2024, PR3 promises to revolutionize guidance staff development.
3. Key activities include needs assessment, material development, training sessions, evaluation, and finalization.

Results Achieved So Far: Progress Highlights

Reflecting on our journey thus far in the VETforNAI project, we celebrate significant achievements and tangible outcomes that pave the way for our mission's success. Here's a glimpse into the results we've attained:

Comprehensive Stakeholder Needs Mapping (R1)

- Through meticulous research and engagement efforts, partners successfully completed Result 1, mapping the needs of stakeholders involved in the integration of newly arrived immigrants into the labor market.
- Insights gathered during this phase have served as a foundation for subsequent project activities, guiding our approach to addressing key challenges and requirements.

Development of Toolkit (R2)

- A major milestone was reached with the development of the Toolkit, aimed at providing tailored vocational and labor market guidance to newly arrived immigrants.
- Partners collaborated closely to design and refine the Toolkit, ensuring its relevance, accessibility, and effectiveness in supporting both immigrants and counselors in their career planning endeavors.

Dissemination Efforts and Project Visibility

- The project's visibility and reach have been expanded through active participation in conferences, seminars, and regional/national events.
- Dissemination activities, including publication of articles, newsletters, and press releases, have effectively communicated project goals, progress, and outcomes to wider audiences.

As we acknowledge these accomplishments, we remain steadfast in our commitment to advancing the project's objectives and making a meaningful impact on the integration of newly arrived immigrants into the labor market.

Next steps

As we move forward with the VETforNAI project, several crucial steps lie ahead to ensure the successful achievement of our objectives. Here's a glimpse into what's on the horizon:

Toolkit Refinement and Finalization

- Building upon the progress made during the Larissa meeting, we will focus on finalizing the Toolkit, incorporating feedback from partners and stakeholders.
- Dimitra will oversee the technical development of the Toolkit, ensuring its readiness for implementation.

Training Needs Assessment and Module Development:

- Partners will diligently work on conducting the Training Needs Assessment (R3.1), gathering insights through surveys and interviews to tailor training materials effectively.
- Module development for the Training Handbook will continue, with each partner refining content and aligning it with project goals.

Implementation of Training Sessions

- Fispè, along with all partners, will spearhead the implementation of training sessions (R3.3), putting into practice the developed materials and methodologies.
- Real-world application and feedback will be invaluable in fine-tuning our approach and maximizing impact.

Dissemination and Visibility

- Efforts in disseminating project outcomes will intensify, with planned participation in conferences, publication of articles, and distribution of newsletters.
- Partners will continue to leverage various channels to raise awareness and share insights gained from the project.

Project Management and Evaluation

- Ongoing project management tasks will be diligently handled, ensuring adherence to timelines, budget management, and effective communication.
- Evaluation activities will persist, with a focus on assessing progress, addressing challenges, and optimizing project performance.

Preparation for TPM4 and LTTA

Partners will start preparations for the upcoming TPM4 in Italy, scheduled for January 2024, as well as the subsequent LTTA in Greece in June 2024

Four partners from different European countries with expertise on the field form the partnership of this project. If you feel you need to know more on the project, implicate or contribute to the implementation, you may contact the project partners directly.
